RE: Declaration of Compliance to RF Exposure Limits for Humans

The 50001538-xx Connect WiEM 9210 802.11 b/g modular transceiver complies with the RF exposure limits for humans as called out in 2.1091 (mobile >20 cm) and RSS-102. It is exempt from RF Evaluation based on its operating frequency of 2411-2465 MHz, and conducted output power of 265 milliwatts. This would be less than the 5 watts requirement for a mobile device in this frequency range.

A handwritten signature in black ink that reads 'Joel T. Schneider'.
