Date 04/19/07

This channel attestation is to state that the Digi ConnectCore 9W (50001355-xx) allows the user the selection of 802.11b/g channels 1-11 in the 2.412-2.462GHz band. The user is restricted to these channel selections by the software that is contained within the ConnectCore 9W and the user has no access to and can not alter this software.

A handwritten signature in black ink, appearing to read "Bill Kumpf", followed by the date "4/19/07".

Bill Kumpf  
Senior Principal Engineer  
Digi International
