<p>MG3- 2125-1</p>	<p>In order for processing of this certification application (FCC ID: MG3-2125) to continue, the following issue(s) will have to be addressed: 1) The schematic shows components that have different values when compared to the internal photos. Also, there is a note on the schematic that some component values are TBD. Please provide a new schematic with the correct component values. Response: The schematic has been revised. 2) The External Photos shows a port on the bottom of the device. Please explain the purpose of the port and if it is used during normal operation. Response: This port is not used in normal operation as it is only to program the EUT to use the special compliance software on the laptop to allow the EUT to be programmed to operate at the low, middle, and high channels. 3) A duty cycle correction factor was used for the testing, however no duty cycle plots were provided. Please provide these plots. Response: The duty cycle correction factor has been uploaded. 4) Please provide RF exposure compliance information. Response: The RF exposure compliance info has been uploaded. 5) Please provide test setup photos. Response: The test setup photos have been uploaded. The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is MG3- 2125-1.</p>
