GSM0110 Tune-Up Procedure

The Enfora GSM0110 is a Compact Flash GSM Modem. The GSM0110 Compact Flash does not allow for any user adjustments to frequency or power output. In normal operation, the GSM network tunes the GSM0110's radio and sets the power level.

Date: June 14, 2004

By: Scott Yarberry

A handwritten signature in black ink that reads "Scott Yarberry". The signature is written in a cursive, flowing style.
