RE: Application for Class II Permissive Change
FCC ID: MIVGSM0308

To whom it may concern;

Novatel Wireless is submitting this application for a Class II Permissive Change of FCC ID: MIVGSM0308, originally granted on February 15, 2007.

The purpose of this application is to update the module to allow for the integration according to the current version of KDB996369. Following the KDB guidelines we are requesting that this module be classified as a Single modular transmitter. The module is being updated to allow for integrations of the modem into host devices using the current modular approval guidelines.

This Class II Permissive Change application covers the following updates to the original application:

- An updated copy of the integration guide.
- A copy of the modular approval cover letter identifying compliance to the sections of KDB996369 section II, A..
- The module is has not changed in design or performance but remains the same as originally tested.

Let me know if you have any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Gallagher", positioned above a horizontal line.

Todd Gallagher
