GSM0108 Modulation (North American GSM Bands)

Modulation

The GSM0108 is a quad-band GSM/GPRS OEM module. In North America it will be running in the GSM (850 MHz) band and the PCS (1900 MHz) band.

The module is/will be certified by PTCRB and uses GMSK modulation via a Digital Signal Processor.

Transmit Frequencies Used in North America:

GSM Band: 824 MHz to 849 MHz

PCS Band: 1850 MHz to 1910 MHz
