Notice_content

Question #1: The user manual does not contain the RF exposure warning statement. Suggest wordings to be included in the user manual are : " IMPORTANT NOTE: To comply with FCC RF exposure compliance requirements, the following installation and device operating configuration must be satisfied:
- Do not alter the antenna. Only use the antenna that is installed in this transmitter.
- This device must be installed and placed at the position which can provide at least 20cm separation distance from all persons.

Please provide revised user manual to comply this requirement.

Question #2: The modifications made on the device during the final compliance testing are included the use of Special Accessory as defined in 15.27 of FCC rules. Please provide a marketing statement to state that the ferrite cores used on the ethernet cable and the one used on DC cable will be provided with each unit sold in the U.S. Additional installation procedure on how to install the ferrite cores should be included in the user manual. Please provide the marketing statement and provide revised user manual.

Question #3: Please provide MPE calculation.

Question #4: Page 1 of technical explanation file can not be read. Please provide another copy of technical explanation.

Best Regards

Mike Kuo / TCB Certifier.
