RE: Honda Lock Mfg. Co, Ltd.

FCC ID: MLBHLIK-1T

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) It appears that an average detector was used above 1 GHz. Please note that when pulsed emissions are employed, average emissions should be shown by correcting the peak emissions by the appropriate duty factor, not using an average detector. Please review average emissions on page 12 of the test report and correct as necessary. If duty cycle corrections are applied, FCC usually asks to be supported by plots when possible.
- 2) FYI.....In the future, when requesting Short-Term confidentiality, please use the sample letter as given in our recent memo regarding confidentiality. Please see attached.
- 3) FYI.....Regarding short term confidentiality, you are responsible for the following:
  - a) Note that any documents held under the short-term confidentiality will automatically become public after 45 days. A manufacturer may extend this period up to an additional 45 days. This requires an additional cover letter requesting this extension must be submitted to ATCB a minimum of 7 days prior to the expiration of the original 45 day temporary grant of confidentiality
  - b) If the manufacturer engages in public marketing activities or otherwise publicizes the device prior to the expiration of the short-term confidentiality period, the applicant must immediately notify ATCB so the exhibits can be made publicly available.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
