

Mr. Frank Coperich  
Re: FCC ID:MMA80400; EA96969  
Correspondence Reference # 14604

Regarding the referenced inquiry, response follows:

1. The antenna is -2 dBd.

HP-105 and HP-405 are made by TIA/EIA-603 regulation.

Duty cycle is decided by attached battery life regulation for your reference.

Transmit 10% or 5%  
Receive 10% or 5%  
Standby 80% or 90%

User instructions have been revised with RF safety caution statement on Page 4.
