SUBJECT : FCC ID: MMAGXT775 / CLASS 2 PERMISSIVE CHANGE(MODEL NO. : GXT781)

To Whom It May Concern:

This will serve as a Class 2 Permissive Change request for the above mentioned FCC Identifier.

The manufacturer is going to make an economic version of the original model GXT775(FCC ID:MMAGXT775) by deletion of Animal sound, Weather Radio, Vibrator with the same PCB and Schematic Diagram.

We have performed harmonics emissions and there is no degradation from the original test data and no change in the output power. The data in the test report shows that it still continues to meet the FCC requirements for this class of equipment.

Should you have any questions or require any further information, please advise.
