**SUBJECT: Class II Permissive change**

This is to request a Class II permissive change to add 16K0F3E emissions designation to the following FCC ID:

MMAMXT275

Description of permissive change:

The radio firmware has been changed to default the channels with repeater offsets to 16K0F3E emissions. No changes to radio hardware were necessary to add this emission. There is no change to the previously reported output power, modulation circuit, frequency determining circuitry, etc. If you have any questions regarding this application, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Butch Rittmann', written over a horizontal line.

Butch Rittmann, Chief Operating Officer
