Columbia, MD 21046

SUBJECT: Class II Permissive change

This is to request a Class II permissive change to add 16K0F3E emissions designation to the following FCC ID:

MMAMXT400

Description of permissive change:

The radio firmware has been changed to default the channels with repeater offsets to 16K0F3E emissions. No changes to radio hardware were necessary to add this emission. There is no change to the previously reported output power, modulation circuit, frequency determining circuitry, etc. If you have any questions regarding this application, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Butch Rittmann', with a long, sweeping horizontal stroke extending to the right.

Butch Rittmann, Chief Operating Officer
