

TXB-ZB Transceiver Module Labeling Information

Labeling Information

When a TXB-ZB Transceiver module is installed in an RTI product it is permanently affixed to the host product and cannot be removed without the use of additional equipment. This TXB-ZB module is also not visible, nor accessible by the end-user. Any attempted access or removal of the TXB-ZB module by anyone other than RTI or its authorized Contract Manufacturers is strictly prohibited.

The TXB-ZB Transceiver module will contain the following FCC Identifier in accordance with FCC 47 CFR Part 15, Section 19 and FCC 47 CFR Part 2, Section 925:

FCC ID MMURTI1300

The FCC Identifier will be displayed on the TXB-ZB Transceiver Module in one of two ways:

1. The FCC ID will be permanently affixed to the module using a non-paper label designed to last the lifetime of the product and permanent adhesive, or
2. The FCC ID will be permanently silkscreened onto the printed circuit board

When installed in a host RTI product, the host RTI product will display verbiage to the effect of the following in accordance with FCC 47 CFR Part 15, Section 212:

Contains Transmitter Module FCC ID: MMURTI1300

or

Contains FCC ID: MMURTI1300

The Operation Manual of the host RTI product will also display the following information in accordance with FCC 47 CFR Part 15, Section 19:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.*
- (2) This device must accept any interference received, including interference that may cause undesired operation.*
