Power Supply

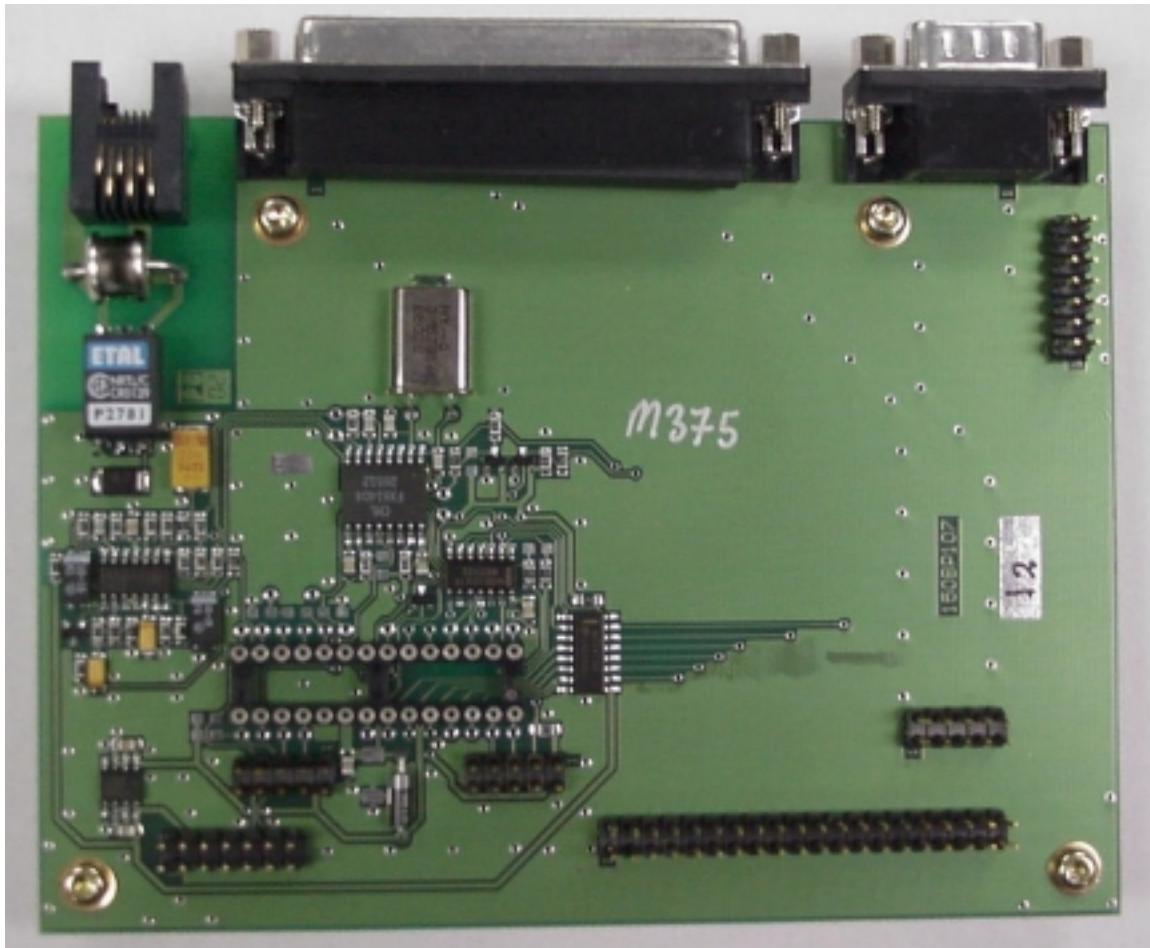

Digital and Modulation PCBs

**Photos of MTX-150 Printed Circuit Boards:**

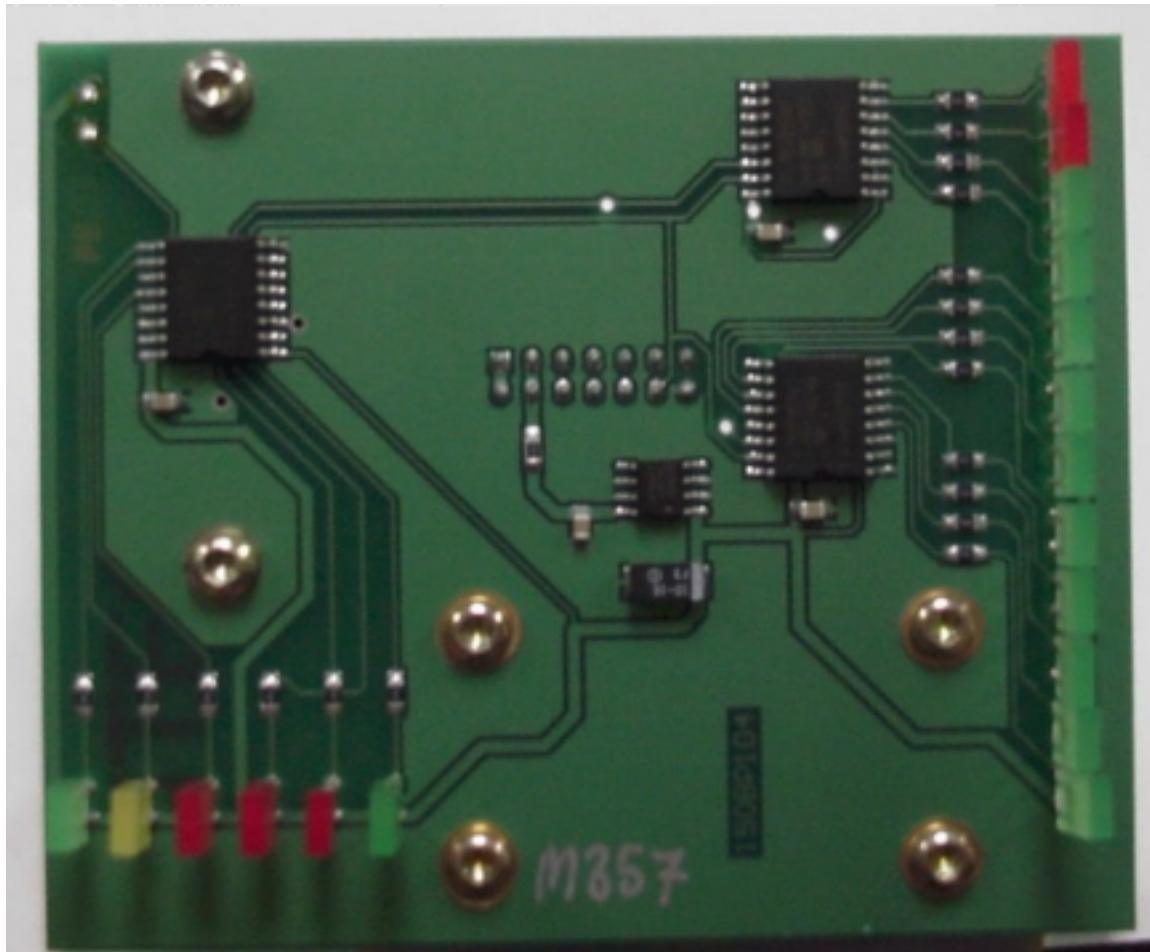

Digital Processing and Modulation PC Boards

No components are mounted on opposite side of this circuit board.

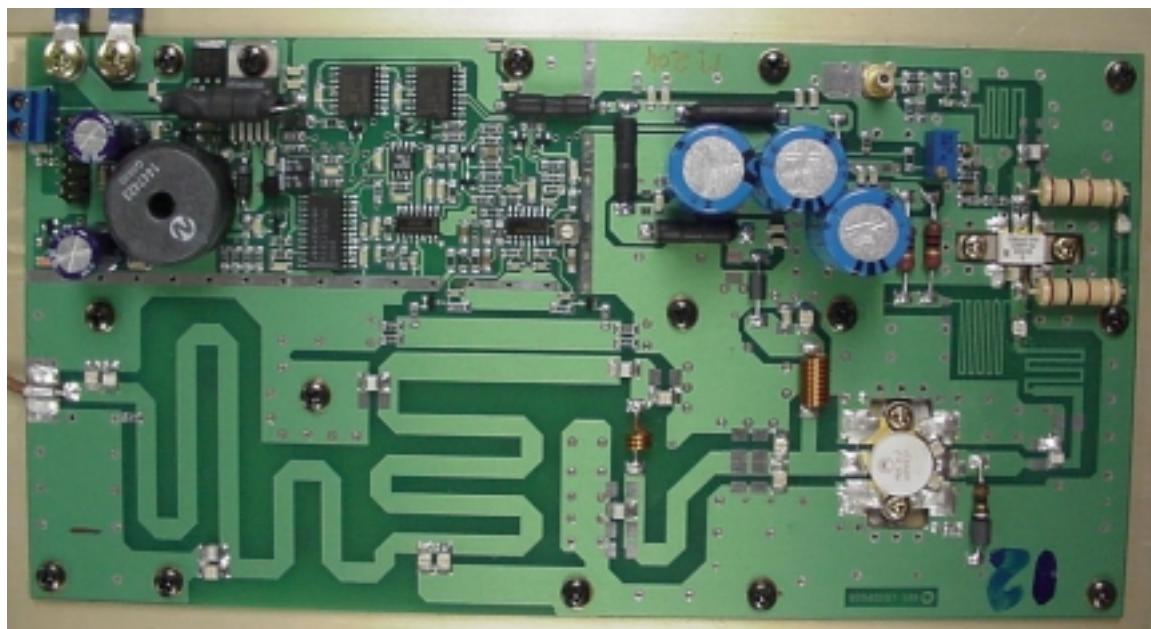

Control Input / Output PC Board

No components are mounted on opposite side of this circuit board.

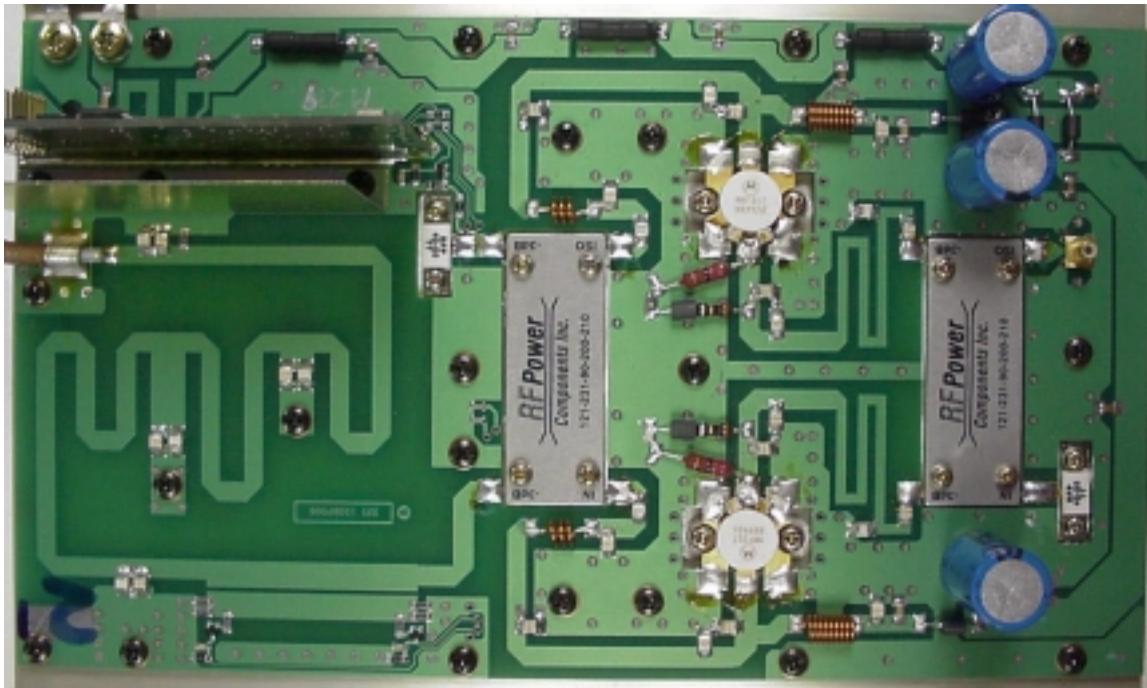

Front Display PC Board

No components are mounted on opposite side of this circuit board.

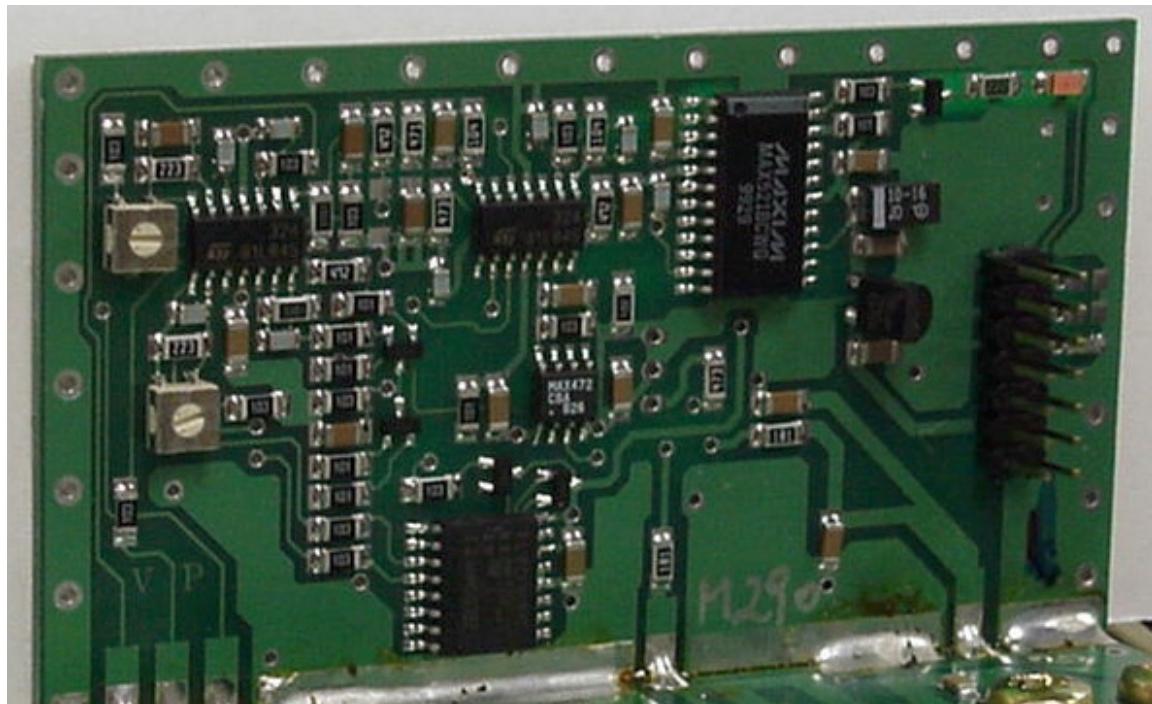

30 Watt Driver PC Board

No components are mounted on opposite side of this circuit board.

100 Watt Power Amplifier PC Board

No components are mounted on opposite side of this circuit board.

Power Control PC Board

No components are mounted on opposite side of this circuit board.
