

TUNER

INSTRUCTIONS

TUNER is a receiver that is used as part of Smart Key System and Remote Keyless Entry System. TUNER receives a radio frequency from Electronic Key, and sends the demodulated electric signal to an ECU installed in the motor vehicle.

For vehicles sold in U.S.A.:

NOTE

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
