Dear Kyozo:

Thank you very much in selecting Compliance Certification Services as your TCB for Grant of Equipment Authorization. I have done the reviews for above TCB application with the following questions.

Best Regards

=====

Notice_content

Question #1: Request for Confidentiality: Seven documents are listed in the letter. There are no document titled Product Description and construction Drawing. In addition, it is FCC policy not to grant the request for confidentiality on the following documents:

Test Reports

Picture (External and Internal Photos)

User Manual (if this is to be considered as Product Description).

Please revise your letter by deleting product description, construction drawing, test reports and pictures.

Question #2: Page 22 of 25 of test report : EUT was measured at distance of 10 meter with average detector and calculated the distance correction factor to compare with field strength limits @ 300 meter. In accordance with 15.209 (e) and 15.35 (b) of FCC rules, when the limits are based on measurements employing average detector, peak limits also applied. Please provide peak readings for frequency range between 110- 490 kHz.

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
