Limited Module Approval Request Letter

Subject: Limited Module Approval

Date: 2007/7/11

FCC ID: MQ4WM2100

Dear Reviewer,

We, Sporton International Inc., are authorized by AboCom Systems, Inc. to have their state-of-the-art 802.11b/g Wireless LAN Mini PCI Card approved under limited module approval authorization. The application of this module is specified to mobile host equipment. The requirements regulated in Public Notice DA00-1407 have been fulfilled and clearly explained below.

1. The requirement of RF shielding: The shielding of the radio portion can be demonstrated in exhibition External Photo.

2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip AR2417.

3. The requirement of power supply regulation: No power regulator can provide stability power source. But specific of hosts have 3.3Vdc regulator to provide stability power via mini-PCI interface to EUT.

4. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.

5. The requirement of stand-alone test configuration: Please reference exhibition Test Configuration Photo for the stand-alone test configuration.

6. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.

7. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.

8. The requirement of RF exposure: RF exposure requirement can be fulfilled only for mobile configuration.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
