

Modular Approval Request Letter

Dear Sir,

There's a WLAN 802.11b/g USB2.0 Mini Module that would like to have your authorization as a modular approval.

The specific product as below, WLAN 802.11b/g USB2.0 Mini Module, with its designed features and specified description, meets special requirements for limited modular approval on FCC Public Notice DA 00-1407 by cross-reference list below.

Company	: AboCom System, Inc
Model Name	: WLAN 802.11b/g USB2.0 Mini Module
Model Number	: WUG2K7C
FCC ID	: MQ4WUG2K7C

Requirement of Public Notice DA00-1407	Reference to WUG2K7C
1. The modular transmitter must have its own RF shielding.	The module hasn't its own RF shielding.
2. The modular transmitter must have buffered modulation/data inputs.	The modular has buffered data inputs, it is integrated in chip RT2571+RT2528. Please see block diagram. Pdf
3. The modular transmitter must have its own power supply regulation.	All power lines derived from the host device are regulated before energizing other circuits internal to the WUG2K7C. Please see circuit.pdf
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The WUG2K7C meets the FCC antenna requirements. It has a unique connector. Please see external photo.pdf
5. The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.	The WUG2K7C was tested in a stand-alone configuration via a USB extender. Please see conducted set-up photo.pdf and spurious set-up photo.pdf
6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The label position of WUG2K7C is clearly indicated. Please see the label.pdf "Instruction in the OEM for labeling the host product is included in the manual."
7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The WUG2K7C is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual. Please see Installation guide.pdf
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The WUG2K7C comply with applicable RF exposure requirements. Please see MPE. pdf

Yours sincerely,

Kevin Chen
