**MODEL: TAP700-01**  
**FCCID: MQO-TAP700-01**  
**IC: 2570A-TAP70001**

**RE: Attestation of Electrically Identical Equipment**

To Whom it May Concern:

Please note that the EUT tested in this application is electrically identical to the EUT tested under FCC ID: MQOTT700-20000, IC: 2570A-TT700200, granted on 07/10/2006, with subsequent Class II permissive change granted on 2/19/2007, except for the internal Bluetooth module, which has been replaced with a new module. Therefore, the DTS results originally tested for the original application and subsequent Class II permissive change are still applicable.

Regards,

Joseph R. Lesik
