Correspondence Reference Number: 38433

Form 731 Confirmation Number: EA618844

Dear Mr. Carlos Bonilla

Thank you for your email addressed to Mrs Marita Latovehmas at SATEL Oy.

Referring to the items of your request, the following information has been prepared.

SATEL Oy, as a manufacturer of SATELLINE-M3-TR1 (SATEL-TA13) radio modems, states that this equipment is designed for operation in the 403 - 473 MHz band. The frequencies 406.0 – 406.1 MHz can be rejected by the manufacturer. When ordering modems from SATEL Oy, the customer needs to advise the country where it is going to be shipped. When the country code is US, the production does not adjust the operation frequency within frequencies 406.0 – 406.1 MHz. The end user can't program and transmit on frequencies, other than those programmed by the manufacturer, service or maintenance personnel.

It is a violation of FCC rules if the device operates on unauthorized frequencies.

Salo, Finland, December 9<sup>th</sup>, 2009

Marita Latovehmas  
SATEL Oy

Type Approval Engineer
