

FCC ID: MRBSATEL-TA13G

Form 731 Confirmation Number: EA947137

According to KDB 634817,

For radio modem module SATELLINE-M3-TR1 (type name SATEL-TA13G) has been applied the FCC ID with extended frequencies. This is the reason for EF grant note:

EF: This device may contain functions that are not operational in U.S Territories except as noted in the filing. This grant has extended frequencies as noted in the filing and section 2.927 (b) applies to this authorization.
