

## COVER LETTER SATEL-TA18 (SATELLINE-EASy Pro 35W)

FCC ID: MRBSATEL-TA18

### **Application for Class II Permissive Change (C2PC) / Type Acceptance with channel spacing 12.5 kHz for an Existing Certificate**

Dear recipient,

Hereby we confirm that only channel spacing of the radio has been changed from 25 kHz to 12.5 kHz by software. There are no hardware or any other software changes in SATELLINE-EASy Pro 35W modem. The reason for this change is that FCC regulations have been changed (25 kHz channel spacing forbidden) and therefore we would like to certify the 12.5 kHz channel spacing only.

Salon, Finland on 24<sup>th</sup> of July 2014
