Re: Certification for Schrader-Bridgeport
Remote Tire Pressure Transmitter
Model: MRXTG224AM01
FCC ID: MRXTG224AM01
CANADA:

Please find enclosed application materials for certification of Schrader-Bridgeport International Low Power Tire Pressure transmitter. We also tested the device for compliance with 15.231(e).

Pursuant to 47 CFR 0.459, Schrader requests that part of the subject application be held confidential. This includes Exhibits

- (5) Schematics
- (12) Description of Operation

Schrader has spent years in developing this product and the success of their business depends on this product line. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will definitely result in a financial hardship.

If there are any questions regarding the application or testing performed, please contact me at the above address or call 647-647-1792, (lab) 734-483-4211, fax 647-647-2106 or e-mail liepa@umich.edu.

Sincerely,

Valdis V. Liepa
Research Scientist
