

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and any part of your body.

This device has been certified for use in Canada. Status of the listing in the Industry Canada's REL (Radio Equipment List) can be found at the following web address:

<http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html>

RF Exposure information

This device meets the EU requirements (2014/53/EU) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

Safety Notices

- Use this product in environments with ambient temperatures between 0°C(32°F) and 40°C(104°F).
- Refer to the rating label on the bottom of your product and ensure your power adapter complies with this rating.
- DO NOT place on uneven or unstable work surfaces. Seek servicing if the casing has been damaged.
- DO NOT place or drop objects on top and do not shove any foreign objects into the product.
- DO NOT expose to or use near liquids, rain, or moisture. DO NOT use the modem during electrical storms.
- DO NOT cover the vents on the product to prevent the system from getting overheated.
- DO NOT use damaged power cords, accessories, or other peripherals.
- If the Adapter is broken, do not try to fix it by yourself. Contact a qualified service technician or your retailer.
- To prevent electrical shock hazard, disconnect the power cable from the electrical outlet before relocating the system.

Información de seguridad

- Use este producto en entornos sometidos a una temperatura ambiente comprendida entre 0 °C (32 °F) y 40 °C (104 °F).
- Consulte la etiqueta de valores nominales situada en la parte inferior del producto y asegúrese de que su adaptador de alimentación cumple con dichos valores.
- NO coloque el equipo sobre una superficie irregular o inestable. Solicite asistencia técnica si la carcasa resulta dañada.
- NO coloque ni deje caer objetos en la parte superior del producto y no introduzca objetos extraños dentro de él.
- NO exponga el equipo a líquidos, lluvia o humedad, ni lo use cerca de ninguno de tales elementos. NO use el módem durante tormentas eléctricas.
- Para evitar que el sistema se sobrecaliente, no cubra las ranuras de ventilación del producto.
- NO cubra los orificios de ventilación del equipo de sobrecarga para evitar que el sistema se caliente en exceso.
- No intente reparar la fuente de alimentación personalmente si se avería. Póngase en contacto con un técnico de mantenimiento autorizado o con su distribuidor.
- A fin de evitar posibles descargas eléctricas, desconecte el cable de alimentación de la toma de suministro eléctrico antes de cambiar la posición del sistema.

REACH

Complying with the REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) regulatory framework, we published the chemical substances in our products at ASUS REACH website at <https://csr.asus.com/english/article.aspx?id=48>

Lyra Trio Quick Start Guide

1 Connect Primary Lyra Trio to Modem

- 1 Unplug your cable /DSL modem*. Remove the battery if it has one.
 - * If you are using DSL for internet, you will need a username/password from your Internet service provider (ISP) to properly configure your router.
- 2 Connect your modem to Lyra Trio with the network cable provided.
- 3 Power on your cable /DSL modem, and check your cable /DSL modem LED lights to ensure the connection is active.
- 4 Plug in the power adapter to Lyra Trio and wait until the LEDs turn to solid white to ensure that your Lyra Trio is ready for setup.

2 Setup your Lyra Trio WiFi system

- #### METHOD 1 Through App
- 1 Download the free ASUS Lyra app.
 - 2 Launch the ASUS Lyra app on your mobile device, and follow the instructions in just a few moments.
- * Make sure your device supports BLE, Bluetooth 4.0 or above.

- #### METHOD 2 Through Web GUI
- 1 Connect PC/NB to your Lyra Trio via WiFi "ASUS_XX_AMAPS". Open a web browser. You will be redirected to the ASUS Setup Wizard. If not, navigate to <http://router.asus.com>

Lyra Trio Guía de inicio rápido

1 Conectar un Lyra Trio principal a un módem

- 1 Desenchufe el módem de cable/DSL*. Quite la batería si hay alguna.
 - * Si utiliza DSL para la conexión a Internet, necesitará un nombre de usuario y una contraseña que le proporcionará su proveedor de servicio de Internet (ISP) para configurar correctamente el router.
- 2 Conecte el módem a Lyra Trio con el cable de red proporcionado.
- 3 Encienda el módem de cable o DSL y compruebe las luces LED de dicho módem para asegurarse que la conexión es correcta.
- 4 Enchufe el adaptador de alimentación a Lyra Trio y espere a que los LEDs se iluminen permanentemente en blanco para asegurarse de que Lyra está preparado para utilizarse.

2 Configurar el sistema WiFi Lyra Trio

- #### MÉTODO 1 Mediante la aplicación
- 1 Descargue la aplicación ASUS Lyra gratuita.
 - 2 Inicie la aplicación ASUS Lyra Trio en el dispositivo móvil y siga las instrucciones que aparecen en unos instantes.
- * Asegúrese de que el dispositivo es compatible con BLE, Bluetooth 4.0 o una versión superior.

- #### MÉTODO 2 Mediante la GUI web
- 1 Conecte el equipo de sobrecarga o portátil a su Lyra mediante la conexión WiFi "ASUS_XX_AMAPS". Abra un explorador web. Será redirigido al Asistente para configurar ASUS. Si no es así, vaya a <http://router.asus.com>.

3 Adding other Lyra Trio to current network

- #### METHOD 1 Through App
- 1 Launch Lyra app and click the "+" icon on the upper right corner, then choose **Add Lyra to current network** and follow the instructions to complete.

- #### METHOD 2 Through Pair Button
- 1 Press the Pair button on the Primary Lyra Trio until the LED starts to blink green light.
 - 2 Press the Pair button on the second Lyra Trio until the LED starts to blink green light, then turns solid light cyan, indicating the pairing process is completed.
- * Pairing feature only works with the Lyra Trio device connecting to modem.
* While setting up through Web GUI, ensure that you pair other Lyra Trio hub(s) with the Lyra Trio using the Pair button.

Colors of Lyra Trio

- Light Cyan**
Everything is good!
- Solid White**
Lyra Trio is ready for setup. It will start blinking when setting up with the app.
- Red**
Loss connection to the primary Lyra Trio. Move it closer.
- Yellow**
Loss connection to the Internet. Please check the cable connected with your modem.

Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
• This device may not cause harmful interference.
• This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Prohibition of Co-location

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

IMPORTANT NOTE:

Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying

S13319 / Primera edición / Septiembre 2017

RF exposure compliance. To maintain compliance with FCC exposure compliance requirement, please follow operation instruction as documented in this manual. This device within the 5.15 ~ 5.25 GHz is restricted to indoor operations to reduce any potential for harmful interference to co-channel MSS operations.

Radio Frequency (RF) Exposure Information

The radiated output power of the ASUS Wireless Device is below the Industry Canada (IC) radio frequency exposure limits. The ASUS Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized.

3 Incorporación de otro Lyra Trio a la red actual

- #### MÉTODO 1 Mediante la aplicación
- 1 Inicie la aplicación Lyra Trio y haga clic en el icono "+" situado en la esquina superior derecha. A continuación, elija **Agregar Lyra a la red actual** y siga las instrucciones para completar el proceso.

- #### MÉTODO 2 A través del botón de par
- 1 Presione el botón Pair del Lyra Trio principal hasta que el LED comience a parpadear en color verde.
 - 2 Presione el botón Pair del segundo Lyra Trio hasta que el LED comience a parpadear en color verde, después cambiará a un cian claro permanente, lo que significa que el proceso de asociación se ha completado.

- * La función de asociación solamente está disponible cuando el dispositivo Lyra Trio principal está conectado al módem.
* Cuando realice la configuración a través de la interfaz gráfica del usuario web, asegúrese de que asocia otros miniconcentradores Lyra Trio con su Lyra Trio principal mini mediante el botón de asociación.

Colores de Lyra Trio

- Cian claro**
¡ Todo está correcto !
- Blanco permanente**
Lyra Trio está preparado para la configuración. Comenzará a parpadear cuando se configure con la aplicación.
- Rojo**
Conexión perdida con su Lyra Trio principal. Acerquelo.
- Amarillo**
Conexión perdida con Internet. Compruebe que el cable está conectado al módem.
