## BEFORE SETTING WE SUGGEST...

**01** If you are preparing to setup a stand alone router

- 1 Go to **SETUP LYRA VOICE AS ROUTER**.

**02** If you are preparing to setup and connect with a Lyra WiFi system

- 1 To be the 1st router of Lyra family.

- 2 To be the 2nd or 3rd node of Lyra family.

**03** If you are preparing to setup Lyra Voice as a repeater

- 1 Go to **SETUP LYRA VOICE AS REPEATER**.

## SETUP LYRA VOICE AS A ROUTER

**01** Connect First Lyra Voice Node to Modem

- 1 Download the free ASUS Lyra app.

\*\* Make sure your device supports BLE, Bluetooth 4.0 or above.

Search for

**ASUS Lyra app**

- 2 Unplug the power cable from your DSL modem.

\*\* Remove the battery if it has one.

\*\* If you are using DSL for internet, you will need a username/password from your internet service provider (ISP) to properly configure your router.

- 3 Connect your modem to any Lyra Voice node using the network cable provided via the port labeled "WAN".

- 4 Power on your modem and check its LED lights to ensure the connection is active.

- 5 Plug in the power adapter to the Lyra Voice node and wait until the LED turns to white and starts spinning to ensure that your Lyra Voice is ready for setup. The node connected to the modem directly will become your primary Lyra Voice node.

**02** Setting Up Your Lyra Voice Wi-Fi System

- 1 Launch the ASUS Lyra app on your mobile device, and follow the instructions.

**03** Download the Amazon Alexa App

- 1 Download the free Amazon Alexa app from Amazon Appstore, Google Play, or Apple App Store to begin using Alexa on your device.
