Headset jack

Microphone
Speaker

USB/Charger port

Flash
Back Camera
Volume

Power/Lock button

Nano SIM/microSD card slot
NOTE: Devices and software are constantly evolving—the screen images and icons you see here are for reference only.
## Setting up your phone

Your phone already has a SIM card installed.

**Charge your phone**
Before turning on your phone, charge it fully.

1. Connect the USB Type-C cable to the AC power adapter.
2. Insert the USB Type-C cable into the USB/Charger port on your phone.
3. Plug the AC power adapter into an electrical outlet.

WARNING: Only use approved chargers with your device. Incompatible chargers or tampering with the charger port could damage your device and void the warranty.

**Optional:** Insert the microSD card
1. With the phone facing up, insert the tool that came with your phone into the hole on the SIM/microSD card tray and gently press to open the tray.
2. Place the microSD card into the tray with the gold contacts facing down (as shown).
3. Gently push the tray back in until it's securely closed.

NOTES:
• Make sure both cards are laying flat before closing the tray.
• The microSD card is sold separately.

## Additional information

**Your wireless device and third-party services**
Verizon Wireless is the mobile carrier associated with this wireless device, but many services and features offered through this device are provided by or in conjunction with third parties. Verizon Wireless is not responsible for your use of this device or any non-Verizon Wireless applications, services and products, including any personal information you choose to use, submit or share with others. Specific third-party terms and conditions, terms of use and privacy policies apply. Please review carefully all applicable terms, conditions and policies prior to using this wireless device and any associated application, product or service.

**Hearing aid compatibility information**
This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer technologies that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Ask your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, ask your service provider or phone retailer.
