Description of Permissive Change

The application is prepared for FCC class II permissive change for previous certified module (FCC ID: MSQAX211NG, Grant issue date: 09/01/2022) by adding UNII-4 frequency band and mode through software enabling to its original parent application (refer FCC ID: MSQAX211NG, Grant issue date: 11/30/2022). The adding frequency band is from 5.815GHz to 5.885GHz.

There is no FCC class II hardware change done to the device and no change to the original Software, Distribution and Security procedure.

Both devices, original and updated versions, are electrically identical in all aspects except enabling frequency bands of 5.815GHz to 5.885GHz.
