- Users are able to access the information in no more than three steps in a device's menu.
 The actual Steps are: Settings> System> Regulatory labels
 No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device.
- The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.
 Yes.
- 4. Users are provided specific instructions on how to access the information. Yes.
- The above information must be programmed by the responsible party and the information must be secured
 in such a manner that third-parties cannot modify it.
 The e-label information is pre-programmed by the manufacturer. The user cannot modify the e-label
 formation.
- 6. When e-labeling is used, a physical temporary label is also required on the product, or a label on the packaging, at the time of importation, marketing, and sales.

 The physical label will be on the packaging box.
