Dear Bill,

Thanks a lot for the comments. Please find the response as below:

1. Yes, we tested the conducted and radiated emission until 19GHz and it is described in section 3.3. However, I add a remark in section 4.6.5 in the updated report.
2. Yes, it is a typo. We rectify it in the updated report.
3. Yes, we tested the worse case with BT on and off. Please find the data in section 10.1.

BR
Daniel
