RE: Certification Application  
FCC ID: MSQWLCFCW1.110

The following information is a list of modifications that will be included in the production process for the above-referenced equipment.

**\*The power value set in the firmware will be reduced. (Field "CR-31" will be tuned at "D8")**

The EUT tested before is not carried into mass production stage and the power of our final products will be tuned as the value attested above.

I sign below and assure that all these changes will be done before the product selling to the public.

Thank you for your favorable considerations upon this statement.

Signatory
