

EXHIBIT: PICTURES

**GXT5002C BOM LEVEL**...has the unit all buttoned up in the box with its labels and accessories . The BOM is GXT5002C\_F

Three pictures. First one is just an unopened carton containing the GXT5002C. The next pictures shows the unit in box: the top /outside of the unit with solar panels. The next picture shows the backside/internal part of the enclosure with the bracket attached.

**UNIT BOXED UP**

**UNIT TOP/EXTERNAL SIDE UP IN BOX**

**UNIT TURNED UPSIDE DOWN SHOWING INTERNAL/BOTTOM OF ENCLOSURE WITH BRACKET ATTACHED**

**01044802 FINAL ASSEMBLY** (SOMETIMES REFERRED TO AS TOP LEVEL). This level is only the unit all buttoned up. It has the screws and gaskets and the enclosure in its BOM. The enclosure is divided into two main sections: the transducer/mounting inside bottom base **66014702** and the outside/top enclosure piece which has all the boards cables, etc.. **66014802**. The BOM for this level is 01044802\_E. The following pictures show the top side all buttoned up, the bottom side, the long sides of the unit, the end side of the unit (both are exactly the same). The last pictures show the unit opened up to show the “transducer or bottom” of the enclosure and the outside/top of the enclosure

**UNIT THAT HAS BEEN FULLY TESTED. LABELS AFFIXED. UNIT READY TO BE BOXED UP**

**BOTTOM/INTERNAL SIDE OF UNIT WITH CIRCULAR GASKET AND LABELS**

**VIEW OF ONE OF THE LONG SIDES OF UNIT**

**VIEW OF THE OTHER LONG SIDE OF THE UNIT**

**VIEW OF THE END OF THE UNIT X2 (BOTH ENDS HAVE SAME LABEL AND ARE THE SAME)**
