# Wireless Temp Sensor - FCC Labelling

The small size of the Wireless Temp Sensor size and limited available space for printing make it impractical to display the full compliance statement on the outside of the product. Instead, only the FCC ID (MUH-RFTS) is shown. The full text of the statement is included in the owner's manual. This option is described in the FCC document ″784748 D01 Labelling Part 15 &18 Guidelines v07″ [1].

The FCC ID is displayed on the product as shown below.

---

[1] *If the device is considered too small and therefore it is impractical (smaller than the palm of the hand) to display the compliance statement, then the statement may be placed in the user manual or product packaging. However, the device must still be labelled with the FCC ID.*
