

Description of Permissive Change

This report is prepared for FCC class II permissive change. The differences compared with the original design are outer appearance and antenna type. The transmitter of the EUT is powered by power adapter and connected with managing computer through RJ45 port. The antenna type is Dipole antenna with Reversed SMA connector. Under normal use condition, the user has to keep at least 20cm separation distance between radiator and the body of the user.

The other instruction, please have a look at the users manual.
