Federal Communications Commission
7435 Oakland Mills Road
Columbia MD 21046

Subject: SDR Initial Grant Request

FCC ID: MXF-AP990624M

To Whom It May Concern:

An SDR grant has the advantages of allowing a manufacture to (1) market the same transmitter with the intrinsic capability of operating in other regulatory domains and/or (2) permit third parties including their customers, professional installers to add software to modify its operating parameters (rule parts, additional frequency bands, new modulation types, change bandwidth). Due to these advantages, we elect to be an SDR.

Sincerely,

Adam Wang/ Manager
