Dear Tim

I've uploaded the revised block, test report and user manual.  
 For Q2, one antenna is for transmitting and another is for receiving.  
 For Q3, I've corrected that page of test report.  
 For Q4, we've remove that sentence from user manual and we used nonshielded cable for the test.  
 Please contact us if you need further information.  
 Thank you.

Regards  
 Emily
