

# Declaration

2011/9/19

Gemtek's FCC application of the WIXFMM-121 2.5G WiMAX /WiFi Hotspot is pure focus on the 2.5G~2.7G frequency band. As for different frequency SKU will limit by HW, SW and profile setting.

The HW, SW and profile setting will be fixed for 2.5~2.7GHz only for this FCC ID: MXF-WIXFMM-121 during the manufacturing and cannot be changed after shipping.

Sincerely,

---
