FEDERAL COMMUNICATIONS COMMISSION

7435 Oakland Mills Road
Columbia, MD 21046
USA

Subject: FCC Certification Authorization Application under FCC PART 15, Subpart C, Sec. 15.247 - Direct Sequence Spread Spectrum Transmitters operating in the frequency band 2400 - 2483.5 MHz.

Product: PCMCIA WIRELESS LAN CARD
Model No.: WL-211F
FCC ID: MXF-WL211F

Dear Sir or Madam:

As appointed agent for **GEMTEK TECHNOLOGY CO., LTD.**, we would like to submit the application to the Federal Communications Commission for certification of the above product. Please review all necessary files uploaded to FCC OET site for detailed information.

Since the rf exposure safety distance is small (2.4 cm) where the power density reach $1\text{mW}/\text{cm}^2$ and the antenna is enclosed within the case, the RF exposure risk is in-considerable. Therefore, the applicant wishes to apply for the exemption of the SAR test requirements. Please kindly refer to the RF Exposure Warning for compliance with FCC Rule 2.1093 in the "RF Exposure Info" Exhibit and User's Manual for detailed information.

Enclosed you will find copy of the engineering report, the necessary documents and information pertaining to this submission, in addition, please refer to the multiple listing letters of agreement from Gemtek Technology Co. Ltd. and NgeeAnn Polytechnic.

If you have any queries, please do not hesitate to contact us.

Yours truly,

Tri Minh Luu, P. Eng.,
