

## Hyperlink Extended Range Wireless LAN

### Product Description

The Hyperlink Extended Range Wireless LAN Kit is a direct sequence spread spectrum wireless transceiver providing 11 Mbit/sec data rate to support wireless connections in an IEEE 802.3 LAN. Equipped with a Hyperlink Extended Range Amplified Antenna System, this product offers a high-performance long-range building-to-building wireless networking solution.

This kit incorporates state-of-the-art direct sequence spread spectrum technology to implement robust 11 Mbps transmission, and offers true “Plug and Play” installation.

This system has the following features:

- IEEE 802.11b Compatibility.
- Wireless 11 Mbps maximum data rate.
- State-of-the-art spread spectrum technology provides reliable, secure, long range, radio link operation.
- True “Plug and Play” installation for compatibility with all 802.3 and Ethernet II LAN devices, all operating systems and all protocol stacks.
- PCMCIA Form Factor
- Bi-directional amplifier with Automatic Gain Control to optimize transmit power and eliminate the effects of system cable losses.
