Federal communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

To Whom It May Concern:

The attached application is for a Class II Permissive Change. These changes (as per attached) were made for preventing shortage of parts and saving the cost of production.

There have been NO changes to the basic frequency determining and stabilizing circuitry (including clock and data rates). There have been NO changes to the frequency multiplication stages. There have been NO changes to the basic modulator circuit. The maximum power and field strength ratings have not changed. These changes have NOT affected the characteristics of this device.

Should you have any further questions or require any further information with regards to this device, please feel free to contact me.

Very truly yours,

.....
