FCC KDB Publication 447498 v05

The maximum peak output power of the transmitter is mW only, which less than 20mW. Hence the EUT is exempted from routine evaluation limits (SAR Evaluation) according to clause 2.5.1 of RSS-102 Issue 4, March 2010.

The minimum user distance to the EUT is 200mm, since maximum peak output power of the transmitter is 1.14mW <20mW, hence the EUT is excluded from SAR evaluation according to FCC KDB publication 447498 D01: Mobile and Portable RF Exposure Guidance v05.
