

G5 Px Pocket Model Differences Letter

Models G5 P1, G5 P2, G5 P3, G5 P4, G5 P5, G5 P6, G5 P7, G5 P8 have no electrical difference. They have the same schematics and pcb layout.

The numbers 1- 8 indicate a number of buttons used (see, for example, the picture below).

The models may have the different printed symbols on the buttons, colors, scripts, pictures etc. used.
