RE: Specifying the Change under FCC section 2.1043 (Class II Permissive Change)
FCC ID: N6C-SX10WAG

Measurement for Wireless 11abg MiniPCI Adapter (Model: SX-10WAG), which has been already granted by the FCC as FCC ID: N6C-SX10WAG according to FCC section 2.1043 changes in certified equipment (b)(2) Class 2.

Changes:

- The device is changed from Mobile category to Portable category. Along with this change, SAR testing was performed. Please refer to the test report.

- Due to mandatory requirement of DFS testing, the testing was performed. Please refer to the test report.

Therefore, this modular transmitter is completely identical with the one, which has already been granted by the FCC as FCC ID: N6C-SX10WAG.

It is verified and confirmed that the equipment still complies with the FCC requirement after changes.

Thank you for your attention to this matter.

Toshiro Kometani
