

1/15/2016

Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

Silex Technology, Inc., hereby requests a Permissive Change Class II of the radio equipment certification for the SX-SDCAG certification number, FCC ID: N6C-SXSDCAG to comply with the new 15.407 rules. This product does not differ from the originally approved product.

I do attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

A handwritten signature in cursive script that reads "Toshiro Kometani".

Signature

Toshiro Kometani  
R&D Senior Manager  
Silex Technology, Inc.
