Re: FCC ID: N6SLFADV

To Whom It May Concern:

The following application is submitted on behalf of our client, Gilbarco Inc., for evaluation of their model LFADV for single modular approval certification under FCC Part 15.209.

The model LFADV is a Radio Frequency Identification Device (RFID) which is designed for use in conjunction with passive transponders (not requiring a battery).

The LFADV was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
