Re: FCC ID: N6SLFECIM

To Whom It May Concern:

The following application is submitted on behalf of our client, Gilbarco Inc., for evaluation of their model LFECIM for single modular approval certification under FCC Part 15.209.

The model LFECIM is a Radio Frequency Identification Device (RFID) which is designed for use in conjunction with passive transponders (not requiring a battery), Texas Instruments Part # RI-TRP-Series. The user carries the handheld transponder and the transmitter portion of the LFECIM operates at 134.2kHz.

The LFECIM was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R'.
