Re: FCC ID: N6SLFSQR

To Whom It May Concern:

The following application is submitted on behalf of our client, Gilbarco, Inc., for evaluation of their model LFSQR for certification under FCC Part 15.209.

The LFSQR Radio Frequency Identification Device (RFID) transmits at 134.2kHz and allows customers wishing to purchase motor fuel or other products to interface directly with a fuel dispenser via a handheld passive transponder.

The LFSQR is designed for use in conjunction with passive transponders (not requiring a battery), Texas Instruments Part #RI-TRP-Series.

The LFSQR was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
