Subject: Confidentiality request for IC: 827B-TCR

To Whom It May Concern,

Pursuant to sections RSP-100, Section 10, the applicant requests confidential treatment of the following information accompanying this application:

Block Diagrams  
Schematics  
Internal Photographs

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the applicant and provide unjustified benefits to its competitors.

This material will need to be kept confidential as the Card Reader is subject to Payment Card Industry (PCI) Security Standards and a key part of the standard requires keeping the "internal design" secret to make it more difficult to determine vulnerabilities. If the Card Reader design is released it violates the PCI standard and also might enable attacks that can compromise Card Data and PIN security.

Sincerely,

Bob Sykes  
EMC Engineer  
Gilbarco Inc.
