Request for Confidentiality

Gentlemen:

In accordance with 0.459 of CFR 47, Sierra Wireless hereby requests confidentiality of the Antenna Specifications attachment for the Class 2 Permissive Change application.

This document contains detailed system and equipment description and related information about the product in which Sierra Wireless considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public until the device is marketed. Since this design is a basis from which future technological products will evolve, Sierra Wireless considers that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,
