Confidentiality

Sierra

Request MC5725...l-MC5725.pdf (53 K

Hi Chris,

Here is the answer to the question you had on the above referenced assessment:

The Confidentiality Request exhibit lists the 'Parts List/Tune Up Info and Operational Description' as items to be held confidential. Please note that these exhibits were not submitted, nor needed for this Class II Permissive Change application. Please revise the Confidentiality Request exhibit to remove the reference to these exhibits. Also please note that short-term confidentiality has been requested for the external photos exhibit; however the label exhibit submitted for this Class II application also contains a photo of the device. While the label location exhibit is required for this application, a drawing is sufficient for this exhibit.

<CCS Answer> Revised Confidentiality Letter and Revised Label are both attached.

Thank you.

Kindest regards,

September

Thu, you are listed as the technical contact for the above referenced TCB application. The following item needs to be addressed before the review can be completed:

The Confidentiality Request exhibit lists the 'Parts List/Tune Up Info and Operational Description' as items to be held confidential. Please note that these exhibits were not submitted, nor needed for this Class II Permissive Change application. Please revise the Confidentiality Request exhibit to remove the reference to these exhibits. Also please note that short-term confidentiality has been requested for the external photos exhibit; however the label exhibit submitted for this Class II application also contains a photo of the device. While the label location exhibit is required for this application, a drawing is sufficient for this exhibit.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
