**RE: Application for Class II Permissive Change
FCC ID: N7NEM7345**

Dear Sir/Madam:

Sierra Wireless is submitting an application for Class II Permissive Change to its radio module, model EM7345 (FCC ID: N7NEM7345), originally certified on 01/18/2014.

The purpose of this application is as follows:

1. To revise the grant condition to allow the EM7345 module to operate in conjunction with other collocated radio transmitters. There is no hardware or electrical modification made to the modular transmitter itself.
2. To enable 2-way authentication between the module and its host, so user-installation can be permitted.

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

A handwritten signature in black ink, appearing to read "Ying Wang".

Ying Wang
Manager, Regulatory Compliance
